

Working with our clients and vendors to offer **SENSIBLE SOLUTIONS** to REAL-WORLD PROBLEMS

Please visit AcuityProcess.com/Linecard for vendor links

Alfa Laval Authorized Distributor- Market Leader in Sanitary and High-Purity Processing Equipment

- High-Purity and Sanitary Rotary-Lobe and Centrifugal pumps and assemblies
- Heat Exchangers including plate-and-frame, tubular, and point-of-use coolers
- Seat, MixProof, Butterfly and check valves/ TriClover Tri-clamp BPE-Compliant fittings

Eilersen Weighing Systems - Innovative Capacitive Load Cells

- High-Integrity weighing systems for tanks, mobile carts, and scales
- Simple installation; system is impervious to shock, overload, and impact
- Extremely clean design with electropolished exterior minimizes entrapment areas

Holloway America- Highest Quality ASME Pressure Vessels

- ASME BPE Pressure Vessels in Stainless, Hastelloy, and other exotic materials
- Jacketed and Non-Jacketed, fully-outfitted with agitation and instrumentation
- Revolution Lift electric lifting assembly eases tank maintenance and safety
- Affordable Field tank repairs, reconditioning, and modification

Energip- High-Quality Shell & Tube Heat Exchangers

- Sanitary shell and Tube units in Stainless, Duplex, Hastelloy, AL6XN and other alloys
- 40 Years of high-quality fabrication & Rapid Turnaround "When Schedule Counts"
- Double Tube Sheet design to eliminate potential cross-contamination
- Complete documentation packages to facilitate commissioning

Fusion Fluid Products- Mixers, mixing and agitation systems

- Sanitary and Industrial top-mounted and side-mounted mixers in a range of materials
- Tote and Drum mixers, static mixers, mixer stands
- Exceptional customer service from design to delivery

Fluid Line - Stainless Steel, Hastelloy, AL6XN, Standard and Custom Fabrications

- Acquased - Diaphragm Valves, 2-way, Multiport, GMP Sterile access, Zero Static Tee's
- Safety Caps, Bleed, Vent, and Sample Valves – Fully Submersible
- Instrument Tee's. CPM fittings, Thermowell Elbows,
- Filter Housings, Dip tubes, Spool pieces, Manifolds, Funnels

SVF Flow Controls- Process and Utility Ball Valves

- High-integrity Hygienic and Industrial ball valves including 3-way & multiport
- Actuation and positioner packages available with rapid turnaround times

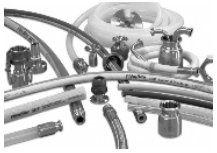

Drylink Inc.- Dry-Disconnect Couplings for fluids & powders

- Zero Leakage split butterfly style quick-connects with redundant safety features
- Available with a range of end-connections, elastomers, and body materials
- Simple operation requires minimal force to secure and operate

TBL Plastics- *Single Use tubing, fittings and fabrications*

- Sanitary tube assemblies and manifolds sterile packed, ETO, Gamma Irradiated
- Custom fabricated carboys, diptubes, caps in polypro, PVDF, and other materials
- aSUREsanitary fittings, plastic tri-clamps, gaskets, sanitary ball valves in PP & PVDF

Ace Sanitary Hose- *Process and Utility Hose*

- Sanitary and Industrial hose, fittings, and hose assemblies
- Teflon, Silicone, Food-Grade rubber compounds
- Industry-leading service and factory inventory for rapid turnaround
- Patented Seal-Rite fitting design insures sterility at the crimp fitting

T-LOC - *Tubing Management made simple*

- Flexible – Our online configurator will guide you through selection
- Strong – 360 Degree support against vibration and pulsation
- Fast – Easy to install and adjust orientation and tubing sizes

Fluid Line - *Single Use Specialties*

- Pinch Valves, Manual & Actuated, Custom Manifold and Panel Mount Solutions
- Quick Locking System for High Pressure Single Use applications
- Single Use and Limited Use In-Line Sample Valves

PolyFab Plastic High Purity USP Class VI Polypro tanks - *Custom design and fabrication of innovative plastic solutions*

- Thermoplastic tanks fabricated or roto-molded in USP Class VI PP
- Custom support frames, dip-tubes, tank accessories, and piping components
- Top-mount or bottom-mount agitation along with stainless mounting options

Mobile Totes and Carts- *standard and custom designs*

- Mobile and fixed bag totes with support frame and load cell options
- Custom and standard carts for in-suite support including filter integrity testing

Custom Plastic Solutions- *Multiple manufacturers based on client requirements*

- USP Class VI Funnels, dip tubes, spray balls, carboys, secondary containment
- Suite appointments including lab furniture, cabinetry, PPE storage, racks

GMP Storage Solutions - *Metro Brand shelving and carts*

- Starsys anti-microbial mobile work centers, Starsys procedure & supply carts
- MetroMax 1, MetroMax 4, MetroMax Q and Super Erecta Pro shelving systems
- High-density rack style shelving systems to maximize usable storage space

Assmann Tanks- *High-Integrity Plastic Tanks*

- Huge selection of polyethylene tanks up to 12,000 gallons of virgin resins
- High-density crosslinked and Linear polyethylene tanks certified to NSF61
