

Visit acuityprocess.com/products for our full product offering

AccuCart Weighing Systems - *Pre-Engineered & Custom Mobile Weighing Solutions*

- Mobile weighing carts for bio-process bags, tanks and other equipment
- Patented Digital-Capacitive Technology - Never worry about a deviation again!
- Replace your floor scale with an AccuCart mobile weighing system

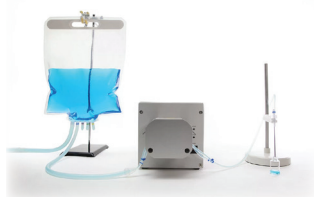

Eilersen Digital-Capacitive Load Cells - *Patented Capacitive Technology*

- High-Integrity weighing systems for tanks, mobile carts, and scales
- Simple installation; system is impervious to shock, overload, and impact
- Extremely clean design with electro-polished exterior minimizes entrapment areas

EilerCal - *Revolutionary Load Cell Calibration System*

- No water or weights required
- Light weight, mobile, and easy to use
- Calibrate fixed tanks and mobile weighing carts

SaniSure Single-Use Assemblies - *Pre-Engineered & Custom for Pharma & BioPharma*

- ISO 11137 sterility program
- Filling, filtration, transfer sets, bag assemblies, bioreactor kits, PUPSIT, and more
- In-house manufacturing of bottles, tubing, fittings, clamps, needles, and more

BioProcess Fittings & Clamps - *Single-Use Tubing, Fittings and Fabrication from SaniSure*

- ADIF Elbows, Tees, and sanitary x hose-barb adapter fittings
- Manufactured in USA and Europe with industry-leading molding capabilities
- Featuring aSURE Instrument Tee's, aSURE Adapters, and much more

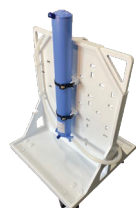

BioProcess Tubing - *Flexible Single-Use Tubing from SaniSure*

- World leader in silicone extrusion for pharmaceutical, bioprocessing, and medical
- Silicone, TPE, and TPV over-molding available for ends and junctions
- Cellgyn TPE, Pharma-Clear Silicone (braided & non-braided), Pharma-Line I, and more

Mixed4Sure - *Pre-Engineered & Custom Single-Use Mixing Systems from SaniSure*

- Made with industry-leading PharmaTainer bottles & carboys (also available in bulk)
- Gamma-irradiated for pharmaceutical and bioprocessing applications
- Mix from 50mL to 20L with optional pH/ Conductivity sensor, powder port, and more

T-LOC - *Tubing, Filter, and Bag Management Solutions*

- A simple, scalable solution to manage your tubing, filters, and bag assemblies
- Improve the repeatability and safety of your single-use process system
- Contact us to build your tailored single-use assembly and T-LOC system!

2D/ 3D Bag Totes & Carts - *standard and custom designs*

- Streamline your process with tailored mobile bag-management solutions
- Innovative mobile weighing and calibration options
- Pre-engineered and custom options to match your bag and connections

Enerquip - *Sanitary, Industrial and Pharmaceutical Heat Exchangers*

- Sanitary shell and Tube units in Stainless, Duplex, Hastelloy, AL6XN and other alloys
- 40 Years of high-quality fabrication & Rapid Turnaround
- Double Tube Sheet design to eliminate potential cross-contamination

Exergy - *Compact heat exchangers and Point-of-Use Dispensing Solutions*

- Automate your WFI, PW dispensing process with PUREX
- Shell & Tube, Tube-in-Tube, and Point-of-Use Heat Exchangers
- New steam-sampling cart available now!

Ace Sanitary - *Process Hoses & Fittings*

- Sanitary process hoses, fittings, and tubing assemblies
- PTFE-Lined hoses with anti-static and flared-through options
- Patented Seal-Rite fitting design insures sterility at the crimp fitting

Holloway America - *Highest Quality ASME Pressure Vessels*

- ASME BPE Pressure Vessels in Stainless, Hastelloy, and other exotic materials
- Jacketed and Non-Jacketed, fully-outfitted with agitation and instrumentation
- Revolution Lift electric lifting assembly eases tank maintenance and safety

Dry Link - *Dripless-Disconnect Coupling for Fluids & Powders*

- Available with a range of end connections, elastomer seals, and body materials
- Simple operation requires minimal force to secure and operate
- Split butterfly quick-connects with redundant safety features

Fusion Fluid Products - *Mixers, mixing and agitation systems*

- Sanitary and Industrial top mounted and side mounted mixers in a range of materials
- Tote and Drum mixers, static mixers, mixer stands
- Exceptional customer service from design to delivery

GMP Storage Solutions - *Metro Brand shelving and carts*

- Starsys anti-microbial mobile work centers, Starsys procedure & supply carts
- MetroMax 1, MetroMax 4, MetroMax Q and Super Erecta Pro shelving systems with high-density rack style shelving systems to maximize usable storage space

Custom Solutions - *Tailored Process Solutions for Pharmaceutical & BioProcessing*

- Comprehensive support from concept to installation & maintenance
- Many unique capabilities to optimize your process and maximize your floor space
- Please visit acuityprocess.com/products for more innovative products & solutions
